PARTNERSHIPS TO ACHIEVE SUSTAINABILITY GOALS

More than ever before, sustainability and 'walking-the-talk' of transparent environmental practices are key strategies needing to be met by the corporate sector.

We're keen to partner with forward-thinking organisations who are moving towards a 'triple bottom line' in their business, and who also want to engage their employees with sound 'shared-value' sustainability initiatives.

SPARE HARVEST OFFERS A LOT FOR YOUR BUSINESS

<p>ENHANCED WELLBEING</p> <p>Reduce your workplace social isolation and instil a more egalitarian social structure, e.g. C-suites connecting with everyone through the joy of sharing.</p>	<p>PERSONALISED CONNECTIONS</p> <p>We help facilitate personal connections and conversations that promote unity and break down 'un-conscious' barriers that often form between people.</p>	<p>ELEVATE SUSTAINABILITY</p> <p>You can elevate your organisation's sustainability acceptance by actively caring for your community and the environment.</p>
<p>BRAND BUILDING</p> <p>You can promote your organisation as being 'greener', healthier and more sustainable. It'll appeal to the hearts of your consumers and clients.</p>	<p>PRODUCTIVITY BOOSTER</p> <p>We can create a friendlier and more engaged workplace to boost productivity and enhance your culture helping your organisation to thrive.</p>	<p>BETTER BUSINESS</p> <p>We help enhance your CSR initiatives and advance the United Nation's SDGs so you can 'walk-the-talk' of being a sustainable organisation.</p>

CONNECTING TO REDUCE CONSUMER WASTE FOOTPRINTS

Consumers are one of the biggest wasters on the planet. Spare Harvest allows everyone in your organisation (who are all consumers) a simple and meaningful way to reduce their waste footprint.

By passing items through the sharing and circular economies, (which Spare Harvest is a connector), they can reduce their demand on new things. The simple actions of giving existing resources an extended life or prevent unused items being thrown away, ultimately reduces landfill which is a great thing for our environment.
